

ESG Edge
CUSTOM ESG &
SENTIMENT ANALYSIS

intellectAI

Building a better world through responsible financing with the power of AI

ESG Edge - A cutting-edge AI platform that makes finding and structuring your tailored ESG data a breeze.

We remove the business challenges of today.....

1. No single source of truth for ESG data
2. Manual intensive & specialized training needs
3. Outdated and delays in ESG information
4. No transparency of source and ESG scores

We make finding a company's ESG metrics as simple as a 'google search' with just the company ISIN or website

Get comprehensive & up-to-date sustainability insights from unstructured and fragmented sources in the public domain, for your investment portfolios, eliminating any blind spots.

iESG is powerful enough to run company sustainability reports on your custom metrics, against thousands of companies at once, enabling portfolio level and industry level analysis.

ESG Edge leverages our FABRIC Data Platform for extensive coverage and highest accuracy of information

OUR SOLUTION

Explore our proven and differentiated offerings:

Configurable to your specific needs

Extract metrics and outputs based on your guidelines. Define your own scoring criteria.

Composable Architecture

Orchestrate ever changing data sources as needed to construct customized output.

Comprehensive Data for Decision-Making

Company health trends with historical data insights by custom categories relevant to your portfolio.

Social Listening and Sentiment Analysis

Quickly unearth problematic and controversial entities with deep correlative trends between news and sentiments.

Data source and format agnostic

Intelligently extract relevant attributes from structured, unstructured, publicly available, third party, internal sources and more. We consume many data formats such as Text, PDF, CSV, XLS, JSON and more.

Traceable and Defensible Data

Real time actionable binary and detailed output with full transparency and reference traceability. Inbuilt personalized alerts such as companies, industries, ESG topics and sentiments.
